

# Countertop RO SMR

This product uses a 7-stage advanced filtration system plus Swedish Mineral Rock™ (SMR) for mineral release — making it a complete 7-in-1 purification and water enhancement solution.

## Filtration Stages Countertop

### Non-woven Fabric

Removes larger impurities and particles from the water.

### Carbon Fibre

Eliminates residual chlorine and organic compounds.

### Scale Inhibitor

Prevents limescale formation caused by inorganic ions in the water.

### Non-woven Fabric Layer

Traps carbon particles and ensures cleaner flow.

### RO Membrane

Removes bacteria, heavy metals, and other microscopic contaminants.

### Post Carbon Fibre

Enhances the taste and clarity of the water.

### Swedish Mineral Rock™ (SMR)

Releases essential minerals like calcium, magnesium, and potassium, improving water quality and supporting overall health.
